

COUNCIL MEMBERS DATE FINAL COURT OF REVISION

SPECIAL COMMITTEE RE GAS FRANCHISE GIVES REPORT

Following is a record of the proceedings of the Council of the Town of Wainwright at its regular meeting in the Council Chamber on Tuesday, the 28th day of November, A.D. 1934.

The members of Council present at this meeting were Mayor Foster and Councillors Link, Courrier, McLeod, Welch and Billing.

The recorded proceedings of Council at its regular meeting of November 9th, 1934 were read on motion, were adopted and confirmed as written.

A communication was received from the Soldier Settlement of Canada, relative to school taxes for 1932 on that part of Section 2 in Township 45 and Range 7 West of the 4th M., occupied by Mrs. Beaupre, and, on motion, the Secretary-treasurer was authorized to communicate with the Municipal District of Battle River, informing that district that the Town of Wainwright will accept \$63 net in full settlement of school taxes on the land above mentioned for the year 1932.

A further report on Harry Bowers was received from Dr. Anderson, Superintendent of the Royal Alexandra Hospital and, on motion, the Secretary-treasurer was instructed to acknowledge the report and to request the discharge of this patient from hospital as soon as advisable.

Mrs. Edna L. Link made written application to purchase Lot 16 in Block 7 Plan 6445 V at the price paid by her for adjoining lots and on motion, it was unanimously resolved that the said lot 16 in block 7 be sold to Mrs. Link for the sum of \$35 and the Mayor and Secretary-treasurer authorized to issue transfer of this lot to Mrs. Link on payment of the price mentioned.

Mr. J. W. Daugherty made written application for Lot 18 in Block 15 Plan 6445 V, undertaking the erection of an office and implement warehouse 40x50 feet of cement construction and on motion, it was unanimously resolved that Council accept \$25.00 from Mr. Daugherty for the Lot mentioned and that the Mayor and Secretary-treasurer be authorized to issue transfer of this lot to Mr. Daugherty on payment of the sum mentioned.

A communication, addressed to Council by the N. Bawf Grain Company, Limited, was read in council by Mr. James Robinson, local agent of that Company, advising Council

that the family, occupying the dwelling owned by the Company, has not been paying rental for some time and requesting Council to afford some measure of relief by paying rental of at least \$4.00 per month from the date of default by their tenant.

On motion, it was unanimously resolved that Council do not enter into the proposal submitted by the N. Bawf Grain Company, Limited.

On motion, it was unanimously resolved that the head of the Police department be advised to investigate the issuing of meals after Council had ordered no further meals to be given and that report be given in writing to Council.

The Public Works Committee reported as follows, viz: At the second regular meeting in October, the utility man was loaned to the committee with a view of completing certain work before the arrival of winter. In the month which has intervened, he was incapacitated for a number of days through an accident to his foot but nevertheless a considerable amount of work has been accomplished. A considerable length of old wooden walk, which was beyond repair and which had become a menace to pedestrians, was taken up and replaced by gravel and cinders. This filling when trodden down will make a much safer walk although not so attractive as a wooden walk in good repair. He was also occupied in superintending and checking the gravel being hauled upon the streets and in leveling this gravel when placed. He reports that 52 yards were hauled by Thomas Goodrich and 174 yards hauled by J. H. Henson. This gravel has been spread on Main street North and on Third, Fourth and Sixth Avenues East. Some complaints have been heard as to the quality of this gravel but upon investigation we are of opinion that the quality is quite as good as we can expect to get from pit run gravel in any pit within a reasonable hauling distance and are convinced that this gravel will make a good road surface when properly packed.

It was also reported and the intention of this committee at the beginning of the year to make a considerable improvement in the walks and streets of our town but expenditures in other ways have interfered to a considerable extent with this program. In this connection, we mention the pipe line on Third Avenue. In the year 1933, this pipe line needed repairing and the matter was called to the attention of Council. Some effort was made and a considerable amount of money was expended on labor and material but nothing of a permanent nature was accomplished. The then chairman of the committee on Fire, Light and Utilities brought this to the attention of Council on several occasions but nothing was done and his inquiries were ignored. In July of the present year, it became apparent that this line needed further attention. This committee was summoned to formulate a plan of campaign at which time the Mayor volunteered to supervise the work of repairing the line and the committee entrusted the work to his charge. More than \$200 was expended in labor and material but the committee has at no time been advised of the result of this expenditure although we are of opinion that nothing of a permanent nature was accomplished.

As this committee has now exceeded its estimate, it is not the intention of the committee to carry out any additional work during the present year beyond carrying out the work imposed upon the committee by the motion passed at the second regular meeting of October last in connection with the hauling of gravel by those

Liberal Conference At Calgary Saturday Next

Party Preparing To Broaden Platform For Province

Broadening of the party's platform for this province will be one of the purposes of the provincial-dominion Liberal conference to be held at the Palliser hotel, Calgary, December 1, says W. R. Howson, M.L.A., Alberta leader.

The specific purposes of the party are to amplify the provincial platform in accordance with the powers given by the last provincial convention and to co-ordinate the present federal platform with those items which are purely federal issues, according to Mr. Howson's announcement Saturday.

Invitation to attend the conference have been sent to Liberal members and senators for this province, federal candidates and those defeated in 1930, and the Alberta Liberal executive.

Others invited to attend include Liberal members of the legislature, provincial candidates and those defeated in 1930, members of the provincial executive, various Liberal clubs and all other supporters who may be interested.

Annual General Meeting AND SMOKE CANADIAN LEGION B.E.S.L.

Wainwright Branch, No. 29, will hold their Annual General Meeting in the Masonic Hall, Wainwright, on Friday, December 7th at eight p.m. sharp to which all returned men are cordially invited.

Election of Officers and other important business will be transacted.

Exhibition Medal Won By National System

MONTREAL—Award of a gold medal to the Canadian National Railways for the excellence of their display of the railway system at the official National Exhibition has been made and the medal reached Canadian National headquarters here recently. On the face of the medal is reproduction of the photograph of His Excellency the Earl of Beaulieu. On the reverse side is shown the official coat of arms of the Canadian National Exhibition. The display which won this award for the Canadian National Railways featured the evolution of railway transportation during the last century and was designed and built by the General Railway Department of the Railway

Royal Bank Staff Is Now Distributed

Is Now Distributed

As was noted in our columns last week, the closing of the local branch of the Royal Bank, means the town losing several esteemed folks from among us, some of whom have been on the staff for years.

With the exception of the manager, Mr. W. J. O'Callaghan, (whose transfer is to come through head office in Montreal and who will probably have to remain for a week or so in cleaning up final details of the closing here), the staff have all been notified to report immediately after December 1st to their various appointments as follows: Mr. M. Huget, teller, to Hanna; Mr. R. McLaughlin, ledger, to Calgary; Miss B. Love, stenographer to Lethbridge.

The expressions of regret that this esteemed staff are leaving town are numerous and sincere, and The Star extends to them all best wishes for the future in their new surroundings.

Hoadley Plan Provides Complete Medical Serv. By Provincial Taxation

EVERY EARNER IN ALBERTA TO PAY FOR TREATMENT

Renewal of grants to municipalities and assistance in construction and maintenance of roads will be available to Alberta municipal districts next year if conditions show improvement, stated Hon. J. J. Maclellan, provincial minister of public works, here Friday, addressing the annual convention of the Alberta association of Municipal districts at Calgary last week.

The delegates Friday had been told of the planned health service program which the Alberta government plans to establish.

Hon. George Hoadley, in a convention address, spoke of the scheme the provincial government hopes to enact which would give all persons in the province almost complete medical services such as dentistry, medical care, obstetrical care, major and minor surgery and preventive services.

He did not give all the details, but indicated it would cost each earning individual in Alberta approximately \$24 annually for the service planned. This could include treatment for both the individual and members of his family.

Mr. Harry Bowers, who has recently been a patient in one of the Edmonton hospitals has now recovered sufficiently to return home.

Mrs. J. W. Stuart, of town, and Mrs. Jackson of Greenheadia spent last week end in Edmonton.

Mr. and Mrs. J. W. Daugherty and their son John were in the city for a day or two last week end.

A number of the town's citizens are busy these evenings practising for the big minstrel show to be produced at the theatre on Friday evening of next week.

Fast Moving Melodrama In "Fog Over Frisco"

ELITE HAS WARNER TALKIE FOR SATURDAY AND MONDAY

The highly melodramatic picture which comes to the theatre on Saturday and Monday next, Dec. 1-3, brings thrills and chills as its plot of murder, mystery and romance is cleverly unwoven.

Miss Bette Davis plays the part of a thrill-chasing girl of wealth, whose crooked and daring escapades take drastic toll of her own life and that of her fiancé. Lyle Talbot, Margaret Lindsay, plays the part of Miss Davis' half sister and becomes unwittingly involved in the crime because of her absolute and unfeeling faith in her sister. Miss Lindsay, however, is due to play a very real awakening when she discovers the dead body of her sister in the rumble seat of the car she was driving.

Fire Does Damage At McLeod Home

QUICK WORK BY BRIGADE IS COMMENDABLE FRIDAY

Just at the noon hour on Friday last, Mr. E. Erickson discovered that fire and smoke was belching from the roof of the Frank McLeod home on Fourth Avenue east, and immediately turned in the alarm to the fire brigade who responded in short order.

From what can be learned, Mrs. McLeod was away to the city for a smoke that it was almost impossible to enter the house, but when this was accomplished it was found that this was the only piece of furniture which was destroyed by the fire.

After a strenuous half-hour by the fire ladders, it was found that other furniture in the living room had been injured by the unavoidable spread of the chemicals used to extinguish the blaze, although as soon as Mr. McLeod reached the premises the dining room furniture and other effects were taken out of harm's way.

We understand that only partial insurance was carried, and we sympathize with Mr. and Mrs. McLeod in the loss sustained; especially as they had only just completed what should prove a nice addition to their home.

Vale Council Have Pertinent Resolution Before Convention

SEEKING TO AMEND HOSPITALS' ACT OF PROVINCE

A regular meeting of the Council of the Municipal District of Vale, No. 10, held in the municipal office, on Saturday, November 17th, commencing at 1:30 p.m. All councillors being in attendance, with Reeve Wahlstrom presiding.

Moved by Smith: That minutes of regular meeting held on October 29 be accepted as read. C.U.

Moved by Smith: That arrangements having been made with Mr. H. Maull, for the care of M. C. Tillotson (while convalescing), that the district pay at the rate of \$20.00 per month for board and residence, until further plans be made. C.U.

Moved by Wahlstrom: That offer of B. Nicholas, to lease S. 16-43-6 be tabled until the February meeting, when district will have title of same. C.U.

Moved by Valieu: That Secretary ascertain from the M.H.O., if case of C. McPeak, could be treated satisfactorily in a local hospital. C.U.

Moved by Smith: That district accept cheque for \$100, received on account of sale of automobile, held as security on restitution, and discharge same from "Bill of Sale". C.U.

Moved by Smith: That action of Secretary be endorsed relative to Albert Colp, in placing this rater in Provost Hospital, under the care of Dr. C. B. Rich. C.U.

(Continued on page five)

A Feature Service For Wainwright Men

This is an era of service to buyers, and the Tip-Top Tailors are prepared to do something for the men of Wainwright that should and no doubt will be appreciated.

The local dealer, A. Sowers, will be visited on December 6th by Mr. W. D. Lowden, the Tip-Top stylist, and he will be consulted without obligation by the men of Wainwright and district on any question of style, fabric or color they may care to discuss with him.

This is a great opportunity for ardent dressers of the district and should be taken advantage of.

Prize Winners At Recent Swine Contest

Boys and Girls' Swine Club Recently Turned Out to be an Unqualified Success

In all there were eleven entries and the following were successful in winning prizes with the names in order of merit: Beryl Jackson, 1; Ivan Jackson, Frank Baker, June Jackson, G. Valieu, Marshall Jackson, Rita Valieu, Wallace Ratray, Roland Wilkins, Donald Wilkins and Creighton Green.

The members of the club extend their thanks to Mr. J. W. Stuart for the lunch served and for his special prize, as well as to the Town Council for the use of the Town Hall for the lectures given the members of the government grader.

To assist in fighting the wintry phantoms, the Cork Jewelry store has been fitted with large storm windows on the store front this week.

King George V. To Broadcast Christmas Message To Empire

ALL RADIO ORGANIZATIONS ARE CO-OPERATING FOR FEATURE

Not only will King George broadcast another message to his people this Christmas but the British Broadcasting Corporation will arrange the greatest hook-up ever known.

The King will be heard by probably 200,000,000 persons in the Dominions, India, the United States and elsewhere.

Before he speaks from his Sandringham home, listeners, against the background of the bells from the Church of the Nativity at Bethlehem and sounds of Christmas music, will hear something of the daily life of men and women throughout the Empire.

For example, there will be one broadcast from a Canadian lumber camp; another from a wheat farm in South Australia; another from India by an army officer there, and another from a fisherman in New Zealand.

The natives in a South African bush will give the world the good news, and so the whole earth will be brought within the compass of a single radio set.

All the broadcasting organizations of the Empire are co-operating to make the Christmas Day transmission not only the widest but the most technically efficient.

We regret to learn that Mrs. Currie is still very ill at the home of her daughter, Mrs. Alec Adams in town.

It is surely a splendid array of goods and fancies which is on display in the Forsyth window this week. These will all be on sale at the bazaar which the ladies of the United Church W.A. will hold on Saturday next in the L.O.O.F. hall. To be served, and home cooking sold too.

Bonnyville Will Have New Weekly Shortly

J. W. JOHNSTON, VETERAN WESTERN SCRIBE WILL BE PUBLISHER

There's a new Alberta weekly newspaper in the burning, and while the editor didn't say just when the first issue will appear, it is understood that it will probably be in circulation before the end of the present month.

J. W. Johnston, former publisher of the Alliance Times, and now editor of the Wainwright Star, has a fraternal visit this week. He states that arrangements have been completed for the inauguration of a weekly newspaper by himself at Bonnyville, about forty miles this side of Cold Lake.

The north district is coming into its own, he says. "Crops are good this year, the country is setting up fast, and Bonnyville itself now has an aggregation of merchants in all the lines usually represented in country towns in Alberta, plus features that some towns with they had."

Anyhow, the Bonnyville paper, which, by the way, will probably be called "The Nouvelle," will be issued in the very near future and The News welcomes the advent of its new contemporary. Ex-territory. Ex-territory.

"CHERRYBLOSSOM" VERY SUCCESSFULLY PRESENTED

LARGE COMPANY OF LOCAL PLAYERS DELIGHT CROWDED AUDIENCE

By REV. J. R. GEESEON, M.A., B.D.

The musical comedy, "Miss Cherryblossom," scored a big success last Friday. It was staged in the Elite theatre and conducted by Mr. W. J. Huntingford, who, unassuming as he is of his time with the utmost enthusiasm. There is no doubt that his active supervision of the stage setting and his interpretation of the music contributed largely to the success of the presentation.

The stage was a truly beautiful sight with two cherry trees in full bloom, representing the cherry orchard of a Japanese tea-room. It was hung with Japanese lanterns and decorated with chrysanthemums, while the entry to the tea-room was attractively set off by a rustic porch, suitably decorated and lighted. The lighting effects of the stage were admirably planned and there is no doubt that with such a Japanese atmosphere those things part derived much greater inspiration.

The orchestra did very well indeed being well balanced and surely should be a source of pride to the town. Once or twice it was, perhaps, just a little too prominent, but that could most readily be overlooked when considering the merits of the whole performance.

The singing was all that could be desired. The Gelsia girls were, perhaps, just a trifle too solemnly attired, although this brought out in greater vividness the bright clothing of Cherryblossom, Kokemo and Togo. Another minor criticism might be offered in that there were rather too many Gelsia girls for the size of the stage, but again it may be said that numbers make very effective chorus work.

The chorus work was well done, and there was ample volume. The full ensemble was very powerful and at the same time very melodious. There were no obtrusive voices; all worked so smoothly and rhythmically. The music was well planned and led naturally to the climax, and at the same time we have the contrasting music of Togo, a Japanese reminiscence of Sullivan's "Mikado". There was enough of light and shade to make so well-balanced an operetta.

The story centres around an American girl who has been brought up by a baby for Kokemo, a Japanese tea-room proprietor. She is ignorant of her American parentage. The operetta opens with her about eighteen years of age. Among some American tourists is John Henry Smith (Jack), who falls in love with her, but she is destined to be the bride of Togo, a Japanese politician of high rank. They plot to elope; they are thwarted; but finally Togo is defeated for office, and Kokemo, ruined, bewails his lot. Horace Worthington, a New York stockbroker, who had been tempted to convert Cherryblossom's true identity finally, upon the success of a mining venture, reveals the truth and all ends happily.

All the parts were well played. The distinction being exceptionally good. There was no difficulty in following the successive situations and grasping the story theme. The solo and duet work was of high order and the important parts were splendidly done. One does not desire to mention the individual players, especially in such a large cast as this; it is enough to say that Cherryblossom was well worthy of the stellar role. She was very winsome, and acted her part so naturally that she gave reality to the whole play. She did her vocal work with high excellence. The duet with Jack, "Sailing on Love's Sea" was beautifully done; the

lilting melody captivated the audience and was worthy of the hearty applause it received. The minor love plot of Jessica and Harry was effectively played. It served to contrast the main love theme admirably. Their duet, "The Game of Love" was good. Togo was a fine characterization, as also was Kokemo and the songs of both these artists were well received. The solo numbers, "Kokemo's Lament," "By His Royal Commandment," and "The Common Herd" were well rendered, and in the latter number Togo magnificently maintained his dignity!

The "American tourists" who had accompanied Worthington to Japan for a yacht holiday were effectively both in their "sports" attire at first as well as in the handsome gowns and dress suits of the closing scene, and these admirably set off the oriental dress worn by the Gelsia girls, all of whom displayed most thorough training both in their fan drills as well as their singing, as did "Cherryblossom" with her solo "Gelsia" dance.

I must call a halt to this description. I would like to write more, but enough has been written to indicate with what delight the writer listened to the timely melodies, and followed the action of the play. No many towns of the size of Wainwright could stage so effectively a musical offering of this character. The heartiest congratulations are due to the whole of the company of nearly 50 persons.

The following was the full company: Cherryblossom, Mrs. H. P. Thorson; Kokemo, Mr. R. G. Dunsmuir; John Smith, Mr. George Clark; Harry Jones, Mr. George Clark; Kokemo, Mr. M. D. Mowbray; James Young, Mr. Mel Ford; Jessica Vanderpool, Mrs. E. Ganderston; Togo, Mr. Charles Horn.

The American guests on Mr. Worthington's yacht, Mrs. W. S. Clark, Mrs. G. Clark, Mrs. R. M. Dunsmuir, Miss M. Ford, Mrs. W. Huntingford, Mrs. C. W. McBride, Miss L. Prosser, Miss C. Ranks, Miss E. Steel, Mrs. J. M. Sweeney, Mrs. H. C. Wallace, Mr. H. Cook, Mr. W. S. Goulet and Mr. O. W. Murray.

Gelsia Girls—Misses: Beattie Carr, Velma Clark, Dolores Glane, Corbett Patterson, Gladys Lassure, Dina Fraser, Marion Lane, Patricia Washburn, Peggy Frazer, Mary McElride, Anna Canell, Nita O'Neil, Catherine Wylie, Margaret Canell, Lorna Wiley, Ruth Harder, Lorna Reid, Audrey Green, Vivian Wittmann, Susie Walker.

Members of the orchestra were: Mrs. J. Telford, Miss D. Bruner, and Messrs. A. H. Adams, H. Forker, H. Ward, C. Sargent and H. Leroux with Mr. W. Huntingford wielding the baton.

C.N.R. Busy With Old Country Excursions

WINNIPEG—"The volume of passenger traffic especially eastbound enroute to the Old Country is rapidly increasing and it appears that with time improving, many people are taking advantage of the opportunity to visit Great Britain and European centres," says Mr. Osborne Scott, general passenger agent, Canadian National Railways.

"For the last few days it has been necessary for us to operate extra sleepers eastbound to accommodate passengers booked for the Antonia, Ascania and Duchess of Richmond. Generally speaking, it looks like an 'Old Country Winter' and transportation circles will note a heavy increase in this class of traffic."

Mr. H. Haigen is here on a visit to friends in town for a short while.

SPECIAL NOTICE TO OUR READERS

Christmas is coming and we, who are able, will be wanting to meet the needs of those who are poor by helping to spread Christmas cheer amongst the less favored in our community—especially the children.

The Wainwright Band and the Women's Institute are sponsoring the third Annual Welfare Concert and Dance, to be held Friday, December 14th, 1934, and ask your hearty support and co-operation for its success. The entire net proceeds will be given to the Women's Institute Welfare Fund, to be administered in our community by the W.I. for brightening the lot of those who are victims of hard times.

Tremendous good has been done by this fund in the last two years and there will be many requests this year. If you know of a case deserving of the benefits of the Welfare Fund you will kindly communicate with Mrs. Greer, president, or Mrs. Ott, secretary, Women's Institute, Wainwright.

Way to Ease Headaches, Pain Almost Instantly

METHOD OFTEN RELIEVES NEURALGIA AND RHEUMATIC PAINS IN MINUTES!

Remember the pictures below when you want fast relief from pain. Demand and get the method doctors prescribe—Aspirin. Millions have found that Aspirin eases even a bad headache, in minutes. And see that you get **ASPIRIN**. It is made in Canada, and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin tablet. Get 12 tablets or economical bottle of 24 or 100 at any druggist's.

Why Aspirin Works So Fast

An Aspirin tablet starts to dissolve and act in 2 seconds.

LAND . . . soon in demand

If I am any hand at reading the signs of the times, then the country is in for another big era of land speculation. And when you stop to think of it, the whole history of America is a history of speculation in real estate. The urge that brought most of our ancestors to America was the chance to get land cheap and sell it at a profit, except such as they needed to subsist on. George Washington was the greatest land speculator of the 18th Century. In an old newspaper in which his death was reported, I saw an advertisement of lands for sale along the Ohio River, "Advised George Washington, Mount Vernon, Virginia."

I have lived through many land booms, including the rush of homesteaders into the west, the opening up of Oklahoma and the Cherokee Strip, the great rush of settlers into Southern California, innumerable suburban booms around a dozen cities, and the great Florida speculation which collapsed in 1926.

It looks to me as if the combination of better highways, cheaper cars, Federal encouragement, higher city taxes and the beginning of a return of prosperity is certain to stimulate the demand for land farther and farther away from urban centers.

Look for the next big land boom to set in around the end of next year and reach its peak in, say, 1937.

TREES . . . good investment

The cheapest crop to grow and the one that assures the greatest return in the long run is trees. Up my way the annual harvest of the tree crop is beginning now. Down by the river on my farm Bill Howland is cutting birch, beech and maple for cordwood. My share will go a long way toward the 1935 taxes.

Just below me, Will Seeley has moved his portable sawmill into Noble Turner's pine grove next to the old burying-ground and will saw out maybe a hundred thousand feet of boards, scantling and slabs, worth forty or fifty dollars a thousand rough-plied on the lot.

There are, I guess, ten acres of woods to every acre of cleared land over most of Berkshire county. Counting household fuel and merchantable timber, the annual crop pays big interest on the land value. Five dollars an acre is a good price for most of the pine-covered mountain tops.

Trees are a good investment for a man who is content to stay put. Not so good for the man who is always on the move.

SUGAR . . . from maple trees

Up my way there was a boy five or six years old who had a maple tree in his yard. He had a sugar-bush. In the 1870's I remember that granulated sugar was ten cents and more a pound. We bought some "blended" maple sugar, but there was better sweetening right in our own woods. Maple sugar.

A farm wasn't a real farm in those self-contained days unless it had its "sugar-bush." Up on my hilltop, where the land levels off to get to the top of the sugar-bush. There haven't been tapped in years. Store sugar is too cheap and farm labor too high to make it pay.

I asked for maple syrup the other day in a city restaurant, where I had ordered a plate of buckwheat cakes. There wasn't any more maple in the syrup than there was buckwheat flour in the cakes.

I've a good notion ask the head of the C.C. company at Lee to send a bunch of the boys over next March to tap my sugar trees. It would be an education for them, and maybe I could get some real maple sugar once more.

HORSES . . . still with us

Say what you please about the "hobbyhorse" horse, I have more real interest in horses and more of them in the East at least, than for a long time past. I went to the National Horse Show in New York a couple of weeks ago, and was really interested in the handsome horse team exhibited by one of the leading truck-distributing companies. It used to be the "brewers' big horses" that were the last word in a stylish show. It's the milkmen's horses now, and the "big burners" for which they can grow the necessary fuel and at the same time sell their fertilizer. And in the city streets, nobody has yet built an automobile that will move on to the next house by the side of the milkman's horse making his morning delivery.

It takes too much gas to start a car, especially in cold weather, to make it as economical as a horse in any kind of business that calls for frequent stops and starts.

TREADWAY . . . of Stockbridge

The Congressional district in which I vote, the First Massachusetts, has sent its Representative and my neighbor, Allen T. Treadway, back to Congress for the twelfth time. We are inclined to be conservative in New England. If a man is doing a good job we usually keep him on as long as he wants to stay, especially if he is "home folks." Congressman Treadway was born in the same little country town where he still lives, Stockbridge, Mass., and owns the old Red Lion Inn there, which has been a tavern since before the Revolution.

The defeat of the Representative Britten of Illinois makes Mr. Treadway the "best" of us Republican representation in Congress.

My guess is that Allen Treadway will pull a strong card in the coming reorganization of the Republican Party.

SLAT'S DIARY

Friday—Mrs. Gribble has just moved in to her new home and tonight she was over to see house and she was talking about her new home and she said every thing was fine only she was afraid they did not have proper illumination and a quilt working on his puzzle and he told her he was laying out in bed with a mile easy thumb. He all so broke his leg and collar bone. It was a little accident.

Sunday—Well June and me had a rather quiet day. This is the end. I told her she could return all the notes I had sent to her because I think I to a good place where I can use them over again with pretty good effect.

Munday Hen Ritter witch was with before the Depression came a long ways he just never bothered with much any more and when I put him what he was the reason Hen said they never had a chance to get in his close now a days because he is all ways wearing them. I can't quite understand what he means.

Tuesday—This house down to the mouse paper office where he works at is sending his son to College and when he graduates his going to join him the mouse paper business. He says he believes he can learn the mouse paper business even if he does go to college.

Wednesday—Carl Hunt is a going to open up a drug store over in Jasper county, he told I and pa he just herd they wasent any restarants there.

Thursday—Cm Simmones noked his wife in conscious today and then they a tested him and he told the moyer the reason he done it his wife made him more when she sed to him that she didnt think he loved her no more.

FARMERS' CROP TESTING PLAN

Farmers in Western Canada appear to be losing a substantial amount of money annually as a result of sowing seeds which have become mixed. A crop testing plan which has been conducted each year since 1930 has disclosed this. This plan is sponsored by a committee known as the National Seed Grain Committee, which was set up for the purpose by the National Advisory Committee on Agriculture Services.

The former committee is composed of representatives of the Dominion Government and of the Provincial Governments of the three Prairie Provinces, including the Universities of Manitoba, Saskatchewan and Alberta. L. H. Newman, Dominion Cerealist, is chairman of this committee.

In addition to the grain handling organizations that have already been cooperating with the committee, 150 farmers have been asked to participate in the plan in order to raise as quickly as possible the general level of the quality of the wheat produced across the great wheat growing areas of Western Canada. The response to this request has been very encouraging, as five more companies are actively operating with prospects for a still further addition next year.

This year 14,530 samples of wheat were taken from as many farmers' wagons as 718 elevators, while 860 samples were collected from seed drills. Of the latter 388 samples were obtained from Soldier Settlers

through officials of the Soldier Settlement Board, while the remaining 472 samples were collected by Dominion Seed Branch and Provincial men. All these samples were grown at selected points in different districts and the results show that 24.3 per cent graded A; 35.7 per cent graded B and 40 per cent graded C. This means that about 40 per cent of the 15,000 farmers whose wheat was tested are growing wheat which may easily mean a loss to them of at least one grade and not infrequently of from two to five bushels per acre.

The crop testing plan was inaugurated in 1930 when about 3,200 samples of wheat were taken and grown in plots the following year. In 1933, 5,216 samples were tested and this year the Dominion Cerealist and those associated with him in this co-operative work of practical education contacted with more than 15,000 farmers, about 80 per cent of whom were settled north of the main line of the Canadian Pacific Railway.

When the plots approached maturity the farmers were invited to come and see the results for themselves. As these field day authorities on seed selection from the Provincial and Dominion Departments of Agriculture and the Universities explained what the growing disclosed. It was evident that many of the farmers did not know the name of the variety of wheat they were growing. Hundreds who thought they were growing Marquis were actually producing the most curious mixtures, some of which were wholly unsuited to the district.

An analysis of the samples as a whole showed that 34.7 per cent were Marquis; 20 per cent Garnet; 11.8 per cent Hereward; 6.2 per cent Red Bobs; Ceres, 1.8 per cent; Huron, 1.5 per cent; Preston, 2.5 per cent; Early Red Life, 6 per cent; Off Type Marquis, 3.1 per cent; Durum, 2.8 per cent; miscellaneous varieties, 14 per cent and mixtures 17.2 per cent.

The Committee and the elevator companies are working through the elevator agents to have those farmers, whose wheat the testing showed is inferior for seed, to get in touch with others in the district who have pure seed, and make an exchange on the basis of relative values.

The work is to be extended next year, as the 15,000 farmers whose seed has been tested represent only about one-twentieth of the total number of farmers in the three Prairie Provinces. Eventually it is hoped to eliminate all undesirable mixtures of wheat from Western Canada, and as far as possible, have each district growing only a pure variety, best suited in every way to the locality in which it is grown.

PROV. LIVE STOCK

MARKETING BOARD IS NAMED BY MINISTER

Personnel of Alberta's first live stock marketing board under the Natural Products Marketing Act was announced Saturday afternoon by Hon. F. S. Grisdale, Minister of Agriculture.

The board, consisting of 15 members, was named by the Minister at the request of representatives of the live stock industry in general meeting at Calgary, November 8, following the endorsement of a live stock marketing plan for the province.

The gentlemen named by the Minister to act on the board are: R. P. Gilchrist, Wild Horse; George Ross, St. Kitts; W. C. McKenzie, Lethbridge; Stephen Lunn, Pincher Creek; George Miller, Taber; Paul Thompson, High River; Charles McKinnon, Dalmaden; Howard P. Wright, Airdrie; H. L. Taggart, Olds; Fred McDonald, Mirror; C. R. Abbott, Lacombe; T. R. Murray, Tofield; George R. Hall, Edmonton; H. R. Boutillier, Stroz Lake; and Alex Craig, Wembley.

Honey absorbs moisture from the air and loses aroma and flavor rapidly. Therefore, it should not be left uncovered any longer than is necessary. Extracted honey should be kept in a cool, dry place, but honey in comb should be stored in a warm and dry place.

Reading Time—4 Minutes

"Sure son, I liked that article you had about me in the paper yesterday. A reporter can do an old fashioned lot of good down at headquarters. One thing you got a bit mixed up though . . . that line about 'Officer Moriarty' had an eye for detail that prevented a daring jewelry stick-up. Beggin' your pardon for correcting you, it was Lefty that had that eye for detail, only he miscalculates a bit."

"Yuh see, Lefty was a guy that worked on his own. When he planned that stick-up at Erskine's Jewelry Store, he had everything figured right down to the last detail. He musta studied that store for a week before the stick-up. He knew that old man Erskine let his two clerks go promptly at five, keeping the store open until a quarter past."

"As near as I can figger it, he counted down the clock at exactly five past five, allowing himself exactly four minutes to scoop up the necklaces, then slipping out of the store and losing himself in the crowd of office workers that would be coming out of the big office buildings on either side of the store."

"Yesterday he saunters up the Avenue and has a last look in the window to see that them five diamond necklaces is still there. We know he was in front of the store because old man Erskine told me later he chanced to look out of the window and see this neatly dressed guy carefully set his watch by the clock in the window. From there he saunters North towards the Park."

"A little later I come to relieve Officer Reilly. I've been down the block a couple times when I spot this bird half-way down the block. He looks at his watch then walks briskly towards Erskine's place."

"I don't know Lefty, of course of that he had a police record, but that brisk walk of his gets me a real suspicious. When a guy buys jewelry he don't walk briskly. He kinds

hesitates about going into a place where he'll lay a lot of dough on the line. Sorta thinking it over, like.

"I ducks back into a doorway of a dress shop before he sees me and watches Erskine's entrance. Sure enough, this bird is only in the place five minutes when he walks out just as briskly. He takes a swift look at his watch, then looks at the office building next door and seems to hesitate a bit like he's confused. Then he walks to the curb to hail a cab."

"At that minute Erskine pokes his head out of the doorway and starts yelling bloody murder. That's enough hint for me. I yank out my gun and start running for Lefty."

"He sees me coming and in a split second there's a gun in his hand and he let's go. He misses me and I hear a tinkle of glass behind me as the bullet goes through Erskine's window. Before he can fire again, I pull the trigger and drops him on the curb. Then I turns around to Erskine, who's as white as a sheet."

"What's the matter, I yell. 'Did his bullet get anyone?'"

"Erskine looks at the window. Then he pulls out his watch, compares it with the clock in the window. Then he looks back to me. 'No, officer,' he says, 'the bullet didn't do much damage. Just a pane of glass and the big clock in the window. The glass is insured, and the clock? It seems too bad to punish a faithful servant that way—on a first offense that really saved us. You can see it from inside the store and out, you see. For twenty years we've been going and coming by that clock and today for the first time in all those twenty years it ran thirteen minutes fast.'"

All classes of live stock in Ontario in 1934, according to the June survey, show decreases as compared with 1933: horses (563,700) 1.9 per cent; cattle (2,494,500) 1.2 per cent; swine (1,177,900) 6.8 per cent; and sheep (962,300) 4.0 per cent.

Testing For Oil In Canadian Tar Sands

Success Will Assure Empire's Independence in Oil, Report Declares

Exhaustive tests are being made of Alberta tar sands which, if successful, will mean in the cautious language of an economic survey issued by the Alberta Government—"the complete independence of the British Empire for oil."

There are huge deposits of tar sands at Fort McMurray, nearly 300 miles north of Edmonton, and the present experiments are based on a new process for separating the hydrocarbons in the bituminous material. Various steps of the process have been tested before, but this is the first time they have been attempted in union.

For practical purposes the McMurray tar sands are almost inexhaustible. Their oil content has long been known, and there has been much research into the matter of its isolation by processes commercially feasible. If the problem now is on the verge of solution, the importance to Alberta of this great potential industry hardly can be over-estimated.

There is a heavy public demand for information from the Dominion Entomological Branch on such subjects as improved sprays for household insects, moth-proofing chemicals and cleaning appliances, notably vacuum cleaners, in eliminating and controlling clothes moths and carpet beetles.

FINAL 1934 BARGAIN FARE

RETURN TO

EDMONTON.

Leave Wainwright 3:10 a.m. or 4:20 p.m.

THURSDAY, DECEMBER 6

AND FRIDAY, DECEMBER 7

Returning, leave Edmonton up to and including 7:25 p.m. Monday, December 10 on any train scheduled to stop.

Proportionately low fares from stations between Chauvin and Clover Bar.

Tickets good in coaches only. No baggage checked. Children 5 years and under 12, half fare. Full particulars from Ticket Agent.

The FAMILY DOCTOR

by JOHN JOSEPH GAINES M.D.

AN OLD-TIME FRIEND

The fall of the year is the season when elimination, so important in the human system, may become seriously interfered with, due to changes in the weather. Obstructed elimination is generally announced by feelings of overfulness, lassitude and other warnings which generally announce acute toxemia. Then, there are apt to be eruptions on the skin, unsightly and disagreeable, and which suggest the old friend mentioned in the heading: I refer to the old family medicine, SULPHUR.

Sulphur has been a "family remedy" well back through the ages. I can recall it far back into childhood, when health was much less costly than it is now. Most of the old boys and girls remember the sulphur and molasses which were supposed to

"clean and purify the blood." There is no more honest, dependable stimulant for the elimination than the old-fashioned sulphur and cream of tartar mixed candy; the dose of the compound being a heaped teaspoonful in a half glass of water, at bed-time for a few nights until the bad feelings disappear. Your family doctor will agree with me.

And remember sulphur, gentlemen! For those ugly, obnoxious "skin blotches" What a friend is sulphur (gentlemen) I just prescribed an ounce today, for a young man whose skin eruption I was not able to diagnose. This brings to mind a noted skin specialist, who told me some years ago that, if a doctor prescribed sulphur for every skin disease, he would probably be right over half the time. Don't forget the packet of sulphur for your household medicine chest.

Pattern 8326

Designed in Sizes: 36, 38, 40, 42, 44, 46, 48, 50 and 52. Size 44 requires 2 yards of 39 inch material with 1/2 yard contrasting for collar.

PRACTICAL HOUSE FROCK

Pattern 8220 New and smart are the plated sleeves and stitched belt of this house dress and very becoming to larger figures. The yoke on the waist repeated in effect on the skirt gives the much desired slenderizing lines.

Every woman who does her own sewing wants her house frocks easy to cut and make and this one is one which is very simple.

Calico is being used for house frocks because of the gay and varied designs and colors in which it is found.

For PATTERN, send 15 cents in coin (for each pattern desired), your NAME, ADDRESS STYLE NUMBER and SIZE to Patricia Dow, (Wainwright Star) Pattern Dept., 115 Fifth Ave., Brooklyn, N.Y.

According to the latest statistics, every Canadian in 1933 used 15 pounds of soap, or 68 pounds for each family. The total production of all kinds of soap in Canada in 1933 was 159,127,624 pounds, valued at \$12,268,376 at factory prices.

Experimental Farms News

PRaises CANADIAN TURKEYS

The splendid effect of the high quality of the large shipments of Canadian turkeys to the British Christmas market during the past two seasons is being shown by the outspoken anticipation of British buyers with reference to Canada's forthcoming offering this Christmas. Formerly there was unquestionably some risk involved in transporting chilled poultry over some 6,000 miles, but the trial shipment of 80,000 turkeys in 1932 to the British Isles removed any doubt about the delivery of Canadian poultry in good condition. In the following year, still more turkeys and chickens were shipped with such success that British buyers are still talking about the high quality of Canadian birds and the expert manner in which they were packed.

If further evidence were required that the British market is looking to Canada for supplies of Christmas turkeys, the following comments of one of the principal buyers may be quoted from the British Produce Trade Journal: "Regarding sources of supply from which we expect turkeys for the Christmas trade proper, we must not forget Canada, which will, we think, be exporting good supplies of this class of bird during December. The Canadian turkey is, in our opinion, one of the best imported birds we have in this country. We are sure that last season the quality was better than ever before, and if they are up to last year's standard there should be no trouble in that direction."

VALUE OF CLEAN SEED

The seed grower who markets his seed cleaned and graded has the same status as the manufacturer who turns out a finished article and thereby realizes the highest return for his product. Further, the farmer who sells a finished product has a definite incentive to produce the best, while on the other hand the low prices obtained by seed infested crops constitute the hard lesson by which the grower learns to improve his methods and produce cleaner crops.

Comparatively few farmers are equipped with the means for properly cleaning the seed they grow. The carefully operated fanning mill will clean grain satisfactorily only when the common impurities are to be taken out, but under the ordinary farm conditions it is almost impossible to accomplish similar results with clover and timothy seed. Fortunately, the central cleaning plant system has been developing steadily during the past ten years, and has become a highly specialized business in several areas, particularly in the Ottawa Valley district. These central cleaning plants, equipped with several types of machines for cleaning and grading seed of cereals, clovers,

grasses, and other farm crops, are performing services of inestimable value to the various communities but more especially to the farmers who have seed as a cash crop. The plants are being operated successfully at moderate rates for seed cleaning and have been established either with or without government financial assistance. A three-unit plant, provided with complete machinery and equipment, is equal to the seed cleaning requirements of most farm communities and costs about \$1,200.

Added to the advantage of being able to grow bigger and better crops, the seed producer, particularly of clover and timothy, owes a further benefit to the central cleaning plant. His seed, well cleaned and brought to the highest grade obtainable by the skilful use of the most up-to-date machinery, can now be marketed at its full value, while growers who are obliged to sell their seed in the rough are realizing returns from 25 to 50 per cent less. This contrast to the highest grade obtainable by the skilful use of the most up-to-date machinery, can now be marketed at its full value, while growers who are obliged to sell their seed in the rough are realizing returns from 25 to 50 per cent less. This contrast to the highest grade obtainable by the skilful use of the most up-to-date machinery, can now be marketed at its full value, while growers who are obliged to sell their seed in the rough are realizing returns from 25 to 50 per cent less.

Having the standard of the seed used of both grain and forage crops, with increased yields, is a result directly attributable to the central cleaning plant in every community in which one has been established, and in the Ottawa Valley, apart from the fact that the twenty-four central cleaning plants in 1933 turned out 75,000 pounds of grass and clover seed, graded as Certified No. 1 grade, and 8,900 bushels of cereal seed of Registered grades, the improvement in yield and quality through the cleaning plants was extended to barley growers as well. Large quantities of high class barley are now being produced in that area and are now finding a ready and profitable market with milling companies in Canada. The milling companies accept the grain without cleaning before shipment, and the cost of milling barley being shipped out of the Ottawa Valley in 1933, and more than 250 from this year's crop.

Working in co-operation, the three divisions of the Health of Animals Branch, Dominion Department of Agriculture, are jointly concerned in safeguarding the health of live stock and the maintenance of foreign markets and export meat trade. Every precaution is taken to prevent the entrance of disease from foreign countries and to maintain the health of the domestic stock. The problems of contagious diseases of live stock, studied with a view to meeting new conditions and improving methods of control.

Health Service

OF THE Canadian Medical Association

Edited by GRANT FLEMING, M.D., ASSOCIATE SECRETARY

PUBLIC ENEMY

The term "public enemy" has taken on a new meaning these days since it has been used, by our neighbors to the south, to designate the most dangerous of their gangster element. Public enemies there always have been, and public enemies will likely continue to annoy and irritate and, some of them, to menace the real citizens of that country.

Those who are responsible for the care of the public health have always to contend with a certain number of persons who insist upon what they are pleased to call liberty, but which, in practice, license to endanger the lives of others. These are public enemies because they are against the public welfare owing to their selfish insistence upon doing what they want to do, where, how and why it pleases them, despite what this means to others.

This group includes such people as those who refuse to report communicable disease in their homes; they dodge the responsibility of maintaining quarantine regulations because it means some inconvenience to them. It is either ignorance or selfishness which places personal comfort above the welfare of the rest of the community, a form of selfishness which may, and frequently does, lead to the

loss of life just as surely as do the bullets which are fired by another kind of public enemy.

The winter brings out, in full force, a crop of public enemies who have been described as "open-faced" sneezers and coughers. Not for them to hang their heads, or hide their faces behind a pocket-handkerchief. Not at all; they insist upon doing their coughing and sneezing in the most open way possible.

It is difficult to imagine what goes on in the minds of such people. Is it a desire to make others suffer, to pass on to them the germs of disease, spreading colds, tuberculosis and pneumonia? If so, it is not the worst form of selfishness. It can hardly be ignorance. If it is, then it is comparable to "not knowing that it was loaded," for certainly everyone has heard that coughs and sneezes are spreaders of disease.

What then should be done to these public enemies of public health, these selfish individuals who endanger you personally, your family and your friends? Laws do not reach them effectively, but they do feel the effect of social disapproval. If each of us would show these people that their conduct is not acceptable, this would be more to change their habits than anything else.

THE BOOK

the first line of which reads, "The Holy Bible," and which contains Four Great Treasures

by BRUCE BARTON

"The Holy Bible"

OTHERS TAKE UP THE PEN

The Epistle to the Hebrews, which in our Bible is attributed to Paul, was almost certainly not written by him.

The style is very different from his and it does not seem likely that he would have addressed a letter particularly to Jews.

The best Greek composition in the New Testament is in this letter, and so delicate and persuasive is it that there are those who think they detect a woman's hand. Some have conjectured that Priscilla (Acts 18) might have been the writer. In her home Paul had a lodging, and she and Aquila, her husband, were among his very best friends.

The letter is general, but its definite purpose is to convince thoughtful Jews that they will lose nothing by embracing the new faith out, on the contrary, will gain. It says: "You can have all that you cherish most, and even more in the Christian faith. Do you love your Law? Well you may, but here is the same law written ten times more beautifully. Do you love your temple, your priesthood, your traditions? Everything you have cared for is here, and all the better."

It is noble in its conception of the basic principle of all heroic faith. Read this grand roll call in chapter eleven.

They were stoned, they were sawn asunder, were tempted, were slain with the sword; they wandered about in sheepskins and goatskins; being destitute, afflicted, tormented;

they wandered in deserts, and in mountains, and in dens and caves of the earth.

Wherefore seeing we also are compassed about with so great a cloud of witnesses, let us by aside every weight, and the sin which doth so easily beset us, and let us run with patience the race that is set before us.

Others of the apostles now began to write. James, the brother of Jesus, had never felt wholly satisfied with Paul's doctrine of faith; he wrote a

letter, a strange one for a man of such devotion to the law, of which one might almost say that it was not religious at all, so little did it regard form or ceremony.

Pure religion and unadorned before God and the Father is this. To visit the fatherless and widows in their affliction, and to keep himself unspotted from the world.

A younger brother of Jesus, named Jude, also wrote a short letter. It was rather an apology for not writing a longer one which he had in mind to write on "our common Christianity."

John, the son of Zebedee, also wrote though later, three letters, one a remarkably sweet and beautiful letter addressed to no one in particular, and two short ones. Peter, also, wrote two letters and rather fine ones as might have been expected of this blunt, courageous man. But no one employed this method to the extent that Paul did. His letters were copied and lent and read and became a kind of unofficial manual for the administration of the churches.

CITY AND COUNTRY LIFE

The fact that a country doctor in a small Ontario community, has during the past three years, achieved world-wide fame, and also incidentally too, it is only fair to emphasize—made himself a millionaire as a result of the dollars thrust upon him by gratified patients, emphasizes the age old truth that opportunities exist for advancement in rural areas, whenever real merit shows itself.

Dr. Locke, of Williamsburg, at that is not the first Canadian country medic to achieve outstanding recognition, and similar remarkable careers in other lines of endeavor could be quoted, if needed to show that after all life in the country has its advantages.

One lesson that the depression has taught a lot of people, the Fouries Estate remarks, is that life in a big city has not all the advantages. The young man who left the rural areas a few years ago for the bright lights, found that unemployment was a bitter dose indeed. Those who stayed on the farm have had hard sledding, it is true, but they never had to worry about food, clothing and shelter.

Even the so-called successful men who have migrated from the farm to the big cities, have left something behind of which they must feel the loss. Today the big executive with his salary running into five or more rows of figures, and a dignified title for his job, is nothing more or less than a glorified hired man. The economic independence still live in the rural centers and townships. They have been experiencing a more or less tough time of it. But they are still in business and must realize that being "on your own" has certain compensations.

Why should young people head to the city for a career? Today the smaller places have all the home and community advantages of the city and the benefits of country life besides. A life can be developed here under fewer distractions than amid the rush of a great population. It is still true that if you make a better mouse-trap, the world will run its way to your door. In art and industry many of Canada's leaders have found success far from the maddening crowd. The first appendix operation in the world was performed in the village of Fergus where Dr. Graves still carries on his private hospital and has made history. The young men with ability and initiative can find opportunity and a chance to live to say, if he will, "I did it." Live values, and seek his home as home rather than in the glitter of the distant big city lights.

THE FACTS MUST BE KNOWN

In view of the fact that Wainwright is a divisional point on the Canadian National Railways system, and for that reason having affecting charges on that system is bound to leave an impression on the citizens, or even of whom so many find employment by or through the business of the railroad and its employees, the following editorial from a recent issue of the Toronto Globe is very timely and worthy of study.

On two recent occasions, in St. Catharines and during a visit to the Maritimes, Judge Fullerton, Chairman of the Board of the Canadian National Railways, has taken issue with Mr. Bennett, who has been repeating a repeating his arguments and statistics in behalf of railway amalgamation or so-called unification. It is a strange fact that, although the fact of the Canadian Pacific has been the country promoting his plan, the fact of the Canadian National has been the country opposing it. It is a strange fact that, although the fact of the Canadian Pacific has been the country promoting his plan, the fact of the Canadian National has been the country opposing it.

Boiled down to its essence, the campaign for amalgamation is a challenge to Prime Minister Bennett, denance of the Duff Royal Commission

and Parliament, and attempted destruction of the nation's railway investment. It can hardly be viewed in any other light, considering the plausibility attached to its promotion. Mr. Bennett has not intimated at any time that he wishes to recall this statement made in Winnipeg in 1930: "I say to you that no man in this country rejoices more in the strength and progress of the Canadian National Railways than I made possible as it was in the first instance by the genius of our own statesmen and by the passing of legislation by our party. But more; every effort of mine after July 28 will be for one purpose. That purpose is not only to preserve the identity of the Canadian National Railways as a publicly owned competitor of a private enterprise, but to see that it serves even better and more effectively the Canadian people, who are so proud of it."

Mr. Bennett's Government appointed the Royal Commission to study and report on the railway problem, and Parliament endorsed its findings. Mr. Bennett appears dissatisfied with this procedure, although, strangely enough, speaking in Montreal last May, he took credit as the originator of the Commission. He said: "In 1931 I had a conference with the chief executive officer of the Canadian National, and at my suggestion he proposed to a committee of Parliament that the Royal Commission should be appointed to investigate the transportation situation in Canada. The proposal was approved. In due course the Royal Commission was appointed. It investigated, deliberated, and submitted a report." The people of the country accepted the result with a feeling that a good job had been done, although the leading figures on the Commission could not, in any way, be classified as favorable to public ownership of railways. What has changed Mr. Bennett's views as to the wisdom of such a Commission, for his offering of what he considers a better finding must be regarded as a change?

Moreover, in 1926 Mr. Bennett made a speech in which he upheld the principle of competition. "These two large systems are competing," he said, "and strongly competing, and the people of Canada are obtaining on the whole, excellent transportation facilities and are being charged lower rates than are charged in any other country in the world. While this competition proceeds, it is not, I think, such as may be described as destructive."

Conditions have changed since 1926. They changed for the better for a few years before they became disastrous. And in Vancouver on September 4, Mr. Bennett, protesting that he was not a pessimist, stated even much more railway mileage would have to be constructed in this country. The campaign for amalgamation is fitted with the doctored only. Can the public be blamed for regarding it as a campaign to put something over while conditions appear favorable?

If Mr. Bennett was willing to admit that many of the points now being raised by him in behalf of his policy were submitted to the Royal Commission, and considered by it, he would be fairer to his audiences. In Vancouver and elsewhere he repeated his estimate of a saving of \$50,000,000 to \$75,000,000 a year, wasted in the operation of unnecessary railway facilities. He told the Duff Commission \$75,000,000 could be saved by amalgamation. This estimate was made for him by a committee of C.N.R. officials, he has stated, and calculations were based on the year 1930. It involved abandonment of 5,000 miles of railway, of which 66 per cent was Canadian National. Why not let the people know that the Canadian National, in this period, has already reduced operating expenses by \$88,000,000?

The Duff Commission went fully into the question of earnings and deficits. Mr. Bennett told his Vancouver audience that in nine years, 1925-1933, the Canadian National failed "by no less than \$456,063,195 to earn the interest on its government-owned bonds." These figures include \$288,019,436 of interest accrued on Government loans, and the total de-

ficit in interest on securities in the hands of the public was only \$168,052,757. Why did not Mr. Bennett point this out? Why did he not also show that while the Canadian National was making capital expenditures of some \$456,000,000 the Canadian Pacific expended \$348,000,000, and that, whereas the C.N.R. outlay was devoted chiefly to reorganizing the wrecked combination of railways handed it by Parliament, the C.P.R. outlay went mainly to services auxiliary to the railway system, such as hotels and boats?

There is a good deal of misleading data in this propaganda for amalgamation. If there was not, we may be sure the Duff Commission would not have turned it down so decidedly.

Bumper Crop Needed

To Balance Budget

Says Russell Love

DEFENDS CAR PURCHASE AT

FABER CONVENTION

Hon. J. Russell Love, provincial treasurer, speaking at a U.F.A. convention, Thursday at Taber, said there is little hope of a balanced budget in Alberta until the province raises another \$100,000,000 crop such as in 1928. He was an advocate of controlled inflation as a means of increasing purchasing power and speeding recovery. The provincial treasurer defended the purchase of new automobiles for cabinet ministers declaring it was done in the interests of economy and efficiency. He thought it would cost the province more if the ministers owned their own cars and were given nine cents a mile for their use, as had been suggested in some quarters.

Mr. Love said the farmers had been given a "fair deal" by Prime Minister Bennett in the marketing act, but he feared they would lose it should the Liberals be elected to power. Hon. J. J. MacLellan, in whose riding the meeting was held, said that no date for the nominating convention had been set.

CO-OPERATIVE GOODWILL

The Editor,

The Star.

Dear Sir: Another festive season draws near, the greatest event of the year so may I plead for a better understanding and a closer co-operation among all societies; so that no matter what our name or sign may be we may exhibit the true spirit of "Goodwill to all."

Some communities join together in having one Christmas concert, and I think this is more in accordance with the Spirit of Christmas than for each organization to have their own little affair. May our churches and our fraternal organizations lead the way in making this Christmas what the Creator intended it should be an expression of love to all.

R. T. WRIGHT

Wainwright

SLIGO

We understand that some people went skating last week in a truck and ran the truck out on the ice. It seems the ice was not as strong as expected and the truck went through. I guess it turned out to be a swim rather than a skate.

Mrs. A. Redmond and Alice returned home last Thursday after spending a lengthy visit in the city. Quite a number of the people in this district took in the Smith sale on Saturday and report that things sold very well.

Don't forget the Whist Drive at Sligo school on December 5th. Admission 25 cents. Everybody welcome.

Wedding Shower For

Popular Young Couple

Quite a large crowd were in attendance at the "shower" wedding party which was held in the hall at Greenfield on Wednesday evening last, when a real merry time was enjoyed by all, and congratulations were in order for the newly-weds, Mr. and Mrs. Fred Birtles. During a stay in the dancing, and after refreshments had been served the following gifts were "showered" upon the guests of honor: Mr. and Mrs. Morrison and Lexie, berry set; Mr. and Mrs. Becket and Maude, berry bowl; Mr. Tom Hill and family, teapot; Mrs. E. Melvin, fancy centerpiece; Mr. and Mrs. A. E. Kelt, vegetable dish; Mr. and Mrs. A. Plater, turkey; Mr. and Mrs. R. Carl, assemblers of fruit; Mr. and Mrs. H. Jackson, milk pitchers; Mr. and Mrs. P. Murray, lemon squeezer; Mr. and Mrs. A. Murray, berry bowl; Mr. and Mrs. R. Alexander, cake plate; Mr. and Mrs. Wier, cream and sugar; Mr. and Mrs. Reid, pyrex tea plate; Mr. and Mrs. White, fancy towels; Mr. and Mrs. E. Mills, cushion; Mr. and Mrs. R. Ott, bath towels; Mr. and Mrs. McLean, bath towels; Mr. and Mrs. Cornish, fancy towels; Mr. and Mrs. Pfleger, potato ricer; Mr. and Mrs. Muncester, table center and napkins; Mrs. Lilly, berry bowl; Mrs. W. J. Huntingford, bath towels; Mr. and Mrs. Goodkey, crocheted centerpiece; Mr. and Mrs. L. Carl, cake turner; Mr. W. Rathwell, bedspread; Miss M. Spence, pickle dish; Miss H. Kennedy, sugar and cream; Miss V. Wilhoit, cheese dish; Miss E. Wilson, sugar bowl; Miss A. Penning, berry set; Elsie and Bob Haywood, mustard dish; Margaret and Archie McDougall, teapot; Bessie and Harry French, sandwich plate; Evelyn Muncester and Marcelle, berry bowl; Doris and Francis Daniels, cushion; The Davis Girls, cream and sugar; Miss M. Haynes, buffet set; Miss E. Hart, tea towels; Miss M. Wallace, sandwich plate; Paul and Ed Murray, fancy plate; The Mansfield Family, sugar and cream; Frank McCutcheon, cup and saucer; Elmer Gars, berry dish; Paul and Ed Murray, pitcher; Pete Spady, salt and pepper shakers; Charlie Hutchison, cup and saucer; Douglas Carl, cake plate; The Battray Boys, pyrex tea plate; Harry Zender, mixing bowl; Douglas Jackson, fry pan; John Zender, potato ricer; R. J. Tilley, berry dish; R. B. Reid, potato plate; C. Patterson, sandwich plates; W. Fisher, carving set; The Pirates Club B Team, pie plate; etc.

If a man does not believe in the town in which he lives, he should move to some other town and make room for someone who does believe in it.

Local Retailers You Have Rights!

YOU know that a manufacturer includes in the selling price of his product a percentage for press advertising — a small percentage ranging from 3 to 5 per cent. — sometimes, even more, when consumer-resistance is great or when the gross profit margin is very large. So, when a manufacturer spends \$50,000 a year on press advertising, it can be assumed that the total annual sales of his product amount to from \$1,000,000 or more.

Now if you are stocking a nationally-advertised product — advertised in big-city dailies and in nationally-circulated magazines, you have a right to see this product also being locally advertised — in this newspaper. Your total annual sales of the maker's product, joined to those of its other local distributors (if there are others), entitle you to demand that the product be locally advertised in this newspaper.

Clearly, it is not right that you should be required to promote the sale of a product in the territory served by this newspaper, without receiving from the manufacturer the same kind and degree of sales assistance which he is giving retailers resident in cities where he is spending a lot of money on local advertising.

Quite too often manufacturers don't advertise in local weekly newspapers, saying the city paper is used. They forget, however, that their sales in towns served by weekly newspapers provide an advertising fund which should be spent locally. Why should the contributions from local sales to the maker's advertising fund be spent outside the local sales territory?

You've got a first-class case to put before manufacturers who want you to stock and push the sales of their product, then why not present it, either direct, or through the maker's representative when he calls?

(N.B. — Cut out this advertisement, and show it to the representative of firms whose products you are asked to stock and push).

Wainwright Star

MICKEY MOUSE

Condensed from Women's Companion
By ALVA JOHNSTON

Douglas Fairbanks on his world tour endeared himself to cannibals and head-hunters by showing them Mickey Mouse movies. Tribes of Kafirs in South Africa recently declined to accept any cakes of soap which did not bear the image of Mickey, just as formerly they declined coins which did not bear the image of Queen Victoria. Mickey was recently created a citizen of France at a carnival in Granville. His fifth birthday, on September 28th last, occasioned column-long editorials in English newspapers. In Germany, Hitler has denounced young Norfies for wearing Mickey Mouse emblems instead of the Swastika. There are theatres in Sweden and India which run seven or eight Mickey Mouse epics one after the other as their main programme. The animated cartoon is the life of the movie business in Japan where the feature picture is often cut to pieces because of the Oriental prejudice against scenes where lovers are shown frying in the deep fat of passion.

The number of admissions to theatres where Mickey played last year is calculated at 468,000,000. King George, Queen Mary, Mussolini and President Roosevelt are among his fans. More than 600 manufactured articles ranging from door mats to jewels and watches bear his portrait. "Mickey is Art," declared Robert Harsh, director of the Art Institute of Chicago, in installing a permanent Mickey Mouse exhibit among the great moderns. Longforges are focused on original drawings of him on the walls of fashionable galleries. In short, Mickey is a universal character.

His creator is Walt Disney, a small, eager-faced chap of 32, a little bewildered but wholly unspooled by his sudden rise to fame. His family moved from a Missouri farm to Kansas City when he was eight years old. From the age of nine to 15 he delivered newspapers, getting up every morning at 3:30, finishing about six and then selling papers on the corner. He repeated this routine after school in the afternoon. His earnings went into the family fund. At 15 he got a job as peanut butcher on trains. Responsibility and hard work at an early age gave him his drive and industry.

Disney began to draw almost as soon as he began to walk. He was an old hand at crayons before he was of school age. In 1917, he attended high school for a year and studied cartooning at night. Then pure accident started him on animated drawings. By answering an advertisement he got a position with a company which made motion picture advertising cartoons. Human figures were activated at that time like stop-go signals. Paper arms and legs were pinned to a paper torso. The figure was photographed in one attitude, the arms and legs were then moved, the second photograph taken and so on, the animation being very jittery. Walt induced his company to get away from the Mexican jumping bean effect by drawing a fresh cartoon for each photograph. This is the method used today, nearly 15,000 separate drawings being made for each Mickey Mouse film.

When Disney was 19 he made his first independent production, an animated weekly saga of the news events of Kansas City. Its success inspired him to attempt Little Red Riding Hood on which he worked for six months, using his father's garage as a studio. Other children's tales followed and Walt, just 21, formed a corporation, hired a staff of artists and started on a large scale, but his distributing agency went bankrupt and failed to pay for his films. This crash made him decide to go to Hollywood.

There he and his brother Roy, who furnished capital of \$250, set up a studio. They lived for months on a starvation diet with the ether at their heels. Finally an eastern film distributor became interested and Walt started his Alice in Cartoonland series — a flesh-and-blood heroine with a supporting company of pen-and-ink characters, the photographs of the girl being superimposed on the photographs of the cartoons. After making 60 Alice films Disney produced Oswald the Rabbit. Oswald was a great success and Disney asked a higher price for his work. The distributor's reply was to raid Disney's staff and start making their own Oswalds.

This was the first of three such raids. Many film producers had the idea that Walt was not important to his cartoons, that to duplicate his success it was only necessary to capture some of his able workers. But Disney has survived three almost complete changes in the personnel of his organization and his pictures have steadily increased in popular favor. The voice of Mickey has always been the voice of Disney. Walt started squeaking out the Mickey Mouse dialogues in the early days and has stuck to it for a good reason: if an actor were to speak Mickey's lines, the man might be hired away

and it would disturb fans to have Mickey's voice change from time to time.

After the Oswald raid Disney decided to make a new series and distribute it through some other company. The cat, dog, rabbit and other feasible animals were already cartoon heroes. It occurred to Walt that if he used a mouse hero he had a made-to-order villain in the cat, with unlimited dramatic possibilities. Of course Mickey is a mouse in name only, he is a biped that wears shoes and has a human soul.

At this time the talkies were revolutionizing the movies and Disney decided to fit his new picture, entitled Steamboat Willie, with music and sound effects. This synchronization was one of the major ordeals of Disney's life. The art of matching noise to action was then in great confusion. Effects came before causes, thunder preceded lightning, dull thuds resounded before objects fell. The actor Steamboat Willie was so rattled by the orchestra that he needed only half the accompaniment before the film was finished. Disney induced the director to let the orchestra keep time by watching a film on which a bounding ball acted as a metronome. Results at last were pretty satisfactory but Disney found it necessary to spend a whole night clipping out bits of film here and there to synchronize the music with the action.

Mickey made his debut in Steamboat Willie on September 25, 1928, and was an enormous success. The audience went wild when he gave a concert with a set of dishpans and played a xylophone solo on a cow's teeth. Since then the cow has been a leading Disney character. On the farm Walt used to feed his kittens by shooting streams of milk directly from cow to kitten. Twenty years later this became one of Mickey's gags. The censors of Ohio and some other states held that the sight of a cow's udder was indecent. Disney met the issue by putting a brass wire on the cow.

When making the first Mickey Mouse picture Disney threw in all the wild gags he could think of. Later Mickey began to assume a definite, natural personality and Disney could reject good comedy ideas saying, "Mickey isn't like that." A rival used this gag: a lady character presses her handkerchief to her mouth and her lips are printed on the handkerchief in lipstick; the impression then delivers a monologue. Disney, who Disney calls "camera punk," are held to be unworthy of Mickey. He is not permitted to be cruel or arrogant except with villains. If he is vainglorious one moment he is deflated the next. Extreme vigilance is exercised to keep him from becoming a smart Alec.

Disney has always been an admirer of Charlie Chaplin. As a boy he perfected himself in the art of springing a cane into the air with his feet and catching it nonchalantly. Sneaking out of the bedroom window at night he would attend midnight movies and in time became known as the second best Charlie Chaplin in Kansas City. Disney has always aimed to graft Charlie's psychology upon Mickey and they both have something in common: the same blend of introvert and extrovert, mis-wit and genius, mug and gentleman. The animated cartoon is too rapid for Chaplin's subtle witfulness and pathos; laughs can be produced in the fraction of a second, tears require time. Disney has, however, succeeded in introducing occasional heart-throbs. Once, for example, when Mickey Mouse was elk hunting, he shot his dog which happened by a curious set of circumstances to be wearing antlers, but the artist did not dare to tamper with the feelings of his public. The tragic note was quickly silenced. The dog opened an eye to reassure the audience as Mickey rushed into a close-up and cried, "Is there a doctor in the house?"

The whitewash brush is being assiduously applied, but no amount of whitewashing can disguise the fact that taxes are increasing instead of being reduced.

OF THE SCHOOLS OF THE BRIT-
ISH EMPIRE ALL SCHOOL CHILD-
REN OF THE WAINWRIGHT
SCHOOLS WILL BE GRANTED A
HOLIDAY TOMORROW (THURSDAY)
IN HONOR OF PRINCE
GEORGE OF ENGLAND AND
PRINCESS MARINA OF GREECE
WHOSE MARRIAGE WILL TAKE
PLACE ON THAT DAY IN WEST-
MINSTER ABBEY.

BORN—To Mr. and Mrs. C. Marshall, of Ribstone, at the Wainwright municipal hospital, on November 22, a boy.

BORN—To Mr. and Mrs. W. Woodward, at the Wainwright municipal hospital on November 24th, a boy.

BORN—To Mr. and Mrs. H. Little, on November 27th, a boy.

We learn that Messrs E. Lane and R. Gaudert have arranged to play hockey with the team at Irma for this season and they left for that town on Monday last.

Don't miss the doings in the theatre on Friday evening next, when the Agricultural Society will stage their big annual card party and dance. Admission 50 cents includes the usual bounteous supper.

Dr. and Mrs. E. V. Springbolt with their little son Bruno, have returned from a visit to friends at Hanna.

Mr. R. M. Harley was a week end visitor to the city.

Quite a successful turkey shoot was held at the gymnasium at the week end when a number of the contestants walked away with a big fat Christmas dinner at the expense of Herbert Albert who ran the affair.

After being brought to the hospital at the week end, Mr. Rufe Carl was taken to the city on Tuesday morning for specialist treatment.

Be sure and take advantage of the continued mild weather to make your home comfortable for the colder spells of winter. Big stock and fair prices at the Atlas yard. Joe Welch agent.

It is pleasing to note that Mrs. J. A. Mackenzie, who was very sick last week is now much better although still in hospital.

George Reynolds has been busy this week drilling a new well for Mr. Frank Horn at his home on Seventh avenue.

Mrs. J. Arbuckle arrived from Edmonton last week end to stay for a short while with her sister, Mrs. H. P. Thorson.

Mr. C. F. McFarlane, an oil-well driller from Oklahoma, is in town for a week or so. He is hauling material from one of the former well sites to a new site at Marwayne, where a well is to be drilled as soon as rigged up. He is representing American capital which plans to drill some ten wells.

A professor from the university said "Have a child read anything; but have him read" "Barchester Towers" will be at the library on November 30th.

The date for the Sunday school Christmas concert for the kiddies of the United church is now set for December 20th next.

Mrs. Earl Lee was a tripper to the city for a day or so on Thursday last.

Although the open-air rink has been flooded a couple of times, the mild weather has precluded the opportunity of the devotees getting on their skates just yet.

We are glad to learn that Mrs. R. A. Snyder, who was on the sick list last week end is now improving nicely.

Don't lose sleep keeping a wood fire burning at night when you can get good lump coal at the Atlas yard for \$4.00 per ton. Got a load next week in town. Joe Welch, agent.

Mrs. F. S. Rowland, of Edmonton, is here for a stay with her sister, Mrs. Alex Adams for a short time.

Having enjoyed a couple of weeks holiday with his daughter, Mrs. H. Lepper, in the city, Mr. W. H. Kemp, has now returned home.

Feeling much improved in health after her sick spell, Miss M. Prose, of the hospital nursing staff is planning to return to her duties at the week end.

The annual bazaar of the W.A. of the United church which is held for Saturday afternoon next in the I.O.O.F. hall will no doubt draw quite a large crowd for the fancy and useful articles to be sold. Afternoon tea will be served, too.

The usual good time is promised at the annual card party and dance which is to be staged at the theatre on Friday night by the Wainwright Agricultural Society. Don't miss this opportunity for a real good time.

Mrs. W. E. Washburn visited friends in the city for a few days over the week end.

The Royal trophy for championship wheat (Marquis) at the Royal Winter Fair in Toronto last week was won by Mr. W. G. Gibson, of Ladner, B.C.

Mrs. G. Wade who was visiting Mrs. H. Smart in town for a few days has now returned to her home in Edmonton.

To celebrate her 14th birthday, Miss Hazel Stuart entertained a party of her young friends one night last week.

All returned men should note that the annual general meeting of the Wainwright branch of the Canadian Legion B.E.S.L. has been changed to Friday, December 7th. It will be in the Masonic hall and will include a "smoker."

Mrs. F. E. McLeod was away to the city for the week end on a visit to friends there.

Mr. W. H. Heffernan who was spending some time in the city has now returned home.

Having now fully recovered from his operation Mr. G. T. Steel is back at his duties at the Armstrong store.

Mr. W. H. Heffernan who was spending some time in the city has now returned home.

* * * COMING EVENTS * * *

Don't forget the date for the big card party and dance which the Agricultural Society will stage at the theatre on Friday, November 30th. Splendid supper and good time for all.

Saturday next, December 1st, I.O.O.F. hall. Annual bazaar of the members of the United church W.A. Fancy and useful Christmas Gifts; home cooking; candy, etc. Afternoon tea served. All are invited.

We learn that the head of one of the buffalo which formerly roamed the park here, has been placed in the parish church at Egham, England, by the local lodge of the R.A.O.B. there.

Owing to the dry fall weather, and the large number of cattle which will be fed over the winter, the demand for watering troughs has been exceptionally heavy this fall. The Atlas Lumber Co. have built several for the farm trade, and will be pleased to quote you for one of these. Joe Welch, agent.

Tomorrow (Thursday) will be Thanksgiving Day in the States and no doubt many Americans in our district will be celebrating with them in spirit.

Mrs. Fred Hart left last week end to spend a holiday with friends in Edmonton and at Vegreville.

Brunker's Service Station disposed of a new Chevrolet coach this week. The new owner being Rev. C. N. Bateman.

Mr. G. Andrews, of Trochu, is expected in town this week to take up his duties at the Bank of Montreal as an increase to the staff there.

When the weather is cold fires are more prevalent. Avoid all loss by insuring your property in the sound insurance companies represented by Joe Welch.

Miss V. Vail was a week end tripper to the city.

Mr. Jack Chynoweth is completing arrangements whereby the whole family will spend the winter at the coast.

Take advantage of our special Christmas clubbing offer on page six and thus get The Star for a whole year for nothing! Drop in and talk it over anyway, and save money while the offer lasts.

We are glad to learn that Donald Wilkins has been very sick for the past couple of weeks is now on the mend and feeling better.

Winter seems to be here at last, and may make up for lost time. Keep your home warm with clean coal and storm sashes from the Atlas yard. Joe Welch, agent.

The annual buffalo kill in the National Park here commenced on Monday. Mr. T. Dunn, of the P. Burns Co., is again in charge of the work under the supervision of Superintendent A. G. Smith. Bul Bibby has the contract for hauling all supplies and shipping the buffalo meat, and several of our townsmen will be employed at the plant at the south end of the park.

Dupre's garage this week sold a new Ford V-8 to Walter Gray and another to the Gold Standards Oils Ltd.

Miss J. Shabin, who has been receiving hospital treatment in Edmonton for some weeks is now back home again with her parents at Hope Valley.

We understand that Mr. Lou Tory has rented the George Baker house on Third Avenue east and will move his family in from Aurburndale for the winter.

Why hesitate? Take advantage of the fine weather and do your repairing NOW. Supplies never cheaper. Drop in at the Atlas yard and make sure of this. Joe Welch, agent.

Mr. and Mrs. T. Billing spent a few days in the city last week end accompanied by their two daughters.

Last evening (Tuesday) saw a bridge party at the home of Mr. and Mrs. T. Lane, when they entertained a number of their friends.

It is thought that the loudest noise ever heard in the world was a volcanic explosion in the year 1833, heard three thousand miles away.

The 1934 wheat crop of Canada is estimated at 277,304,000 bushels consisting of 270,282,000 bushels of spring wheat and 7,022,000 bushels of fall wheat. The unreviewed estimate for 1933 was 269,728,000 bushels.
